### Neal Rasmussen Sues William Cromer.

Neal Rasmussen flied sult against Neal Rasmussen filed suit against William H. Cromer and Onesime Bournan yesteroay in the district court, to recover the sum of \$1.268 dumages.

The complaint sets forth that on Dec. 6, 1835, plaintiff traded a piece of improved residence property in Salt Lake City for a strip of land situated in Golden Park addition, also a piece of real estate in Miliard county. Taking the word of the defendants to the effect that the same was a valuable ranch, partially fenced and well supplied with water and that the land was reminorably worth from \$1.400 to \$1.500, the deal was consummated.

Plaintiff did not go to see the land in question until some time ago in September, when he says he found that it was a bare and absolutely valueless piece of property isolated on a mountain ridge without a fence or building upon it. As a consequence plaintiff deems that he has been the victim of frand and decell and prays for judgment against the defendants.

## HONORS FOR LIHUNG CHANG.

Is Made Vicercy of Two Provinces In South of China.

Washington, Dec. 20.—The Chineses minister, Mr. Wu Ting Fang, has re-ceived a dispatch from China, stating

minator, air, wu ring Fang, has beceived a dispatch from China, stating
that Li Hung Chang has been appointel acting vicercy of two provinces in
the south of China adjacent to Canton.
The minister says this is a marked disfluction to the venerable Chineses
statesman, as the provinces are among
the most populous and commercially
important in the empire.

Mr. Wu's dispatch clears up a misapprehension crented by a recent unofficial dispatch stating that Earl Li
would be made vicercy of one province,
that of Canton, and that this would be
followed by a degradation. On the
contrary, the minister's advices show
that the double viceroyalty is an unusual honor, said to be analogous to
that of vicercy of India.

The appearance of Li Hung Chang at
the head of affairs in southern China,
it is believed, will have an important
indusence in that quarter where the
French "sphere of influence" is supposed to be located.
